Center for the Arts**

Computer Science

Diploma

High Honors

### PERSONAL SUMMARY

I'm a Web Developer with a proven ability to adapt in both self-starting and collaborative environments while staying focused on achieving high-quality results under strict deadlines. I love learning new technology and how to apply it, as well as constantly challenging my own skills to learn and grow as a Developer in the industry.

### CAREER HISTORY

#### Web Developer

Rasterize

May 2022 - Present

Remote

- Creating and overseeing website/UI designs.
- Meeting directly with clients in order to build responsive and professional websites that are to their specifications.
- Created documentation to homogenize new and existing team member's code in reference to CSS. This helped eliminate code mix-ups and shortened down time between Developers.
- Addressing complex issues with real-time lead prioritization using ServiceDesk Plus and Git connectivity.

#### Police Dispatcher

Baltimore County 911

March 2021 - May 2022

- Conducted routine checkups of Dispatch computer equipment/systems 4 times per week, troubleshooting and completing maintenance.
- Directed 3,100 Officers and County Personnel to needed locations while maintaining their safety at all times.
- Wrote daily shift and activity reports and submitted all before end of shift.
- Documented events in real-time, updated address profiles, and complied with 100% of local and state regulations into top-secret County databases.
- Worked with the IT Department to help develop the User Interface of the 911 software used throughout the County.

#### Lead IT Technician

DJ's Electronics

August 2007 - March 2021

- Conducted research on and incorporated different technologies to assist in the daily hardware and software repair tickets.
- Spearheaded year-over-year profitability of a 15% total by creating a website for the business and informing clients of their computer repair status daily.
- Monitored competitive markets, and updated knowledge of new initiatives to design accountability incentives that reduced product costs by 10%.
- Managed a 6-line phone system to answer, screen, and forward calls.
